DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 21 is rejected under 35 U.S.C. 102(b) as being anticipated by Musacchia.

Musacchia teaches in figures 1-10 an apparatus for holding a game call having a top laying surface and a peripheral top rim, comprising a plurality of pivoting structures (The examiner takes the position that the pivoting is caused by the tension and stretching of cord 46-46 as described in col. 5, lines 1-23), an adjusting mechanism (col. 4, lines 64-67) and a strap coupled to the adjusting mechanism (80 is coupled via 28).

Allowable Subject Matter

Claims 1-20 are allowed.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Piper teaches a game calling device. Allen teaches a game call holder. Legursky teaches a turkey call. Shockley teaches a device for attracting animals.
